Note 2

This comparison of rates is done as a guide only for those seeking accommodation. To get firm prices and bookings, call the establishment of your choice.

Note 3

The Adams River Salmon Run occurs when the School is on in 2010. The size of the runs varies from year to year with every fourth year being a huge run. 2010 is a 4th-year run which Tourism BC really promotes and Sorrento accommodation will be booked solid very early so carvers and painters be forewarned to book early and by all means go and see the salmon while at the School.
